CHEF'S TIP

How do you know if your pasta water is salty enough? Taste it! (We're serious.) Because your cooking water is the only chance you have to season the pasta itself, it's super important to treat it like you would any other ingredient. The water should taste about as salty as the ocean!

MORE IS MORE

If you upgraded your meal to double your protein or veggies and/or ordered 6 servings, you may need to cook in batches or larger cooking vessels. Remember: Larger batches may = longer cook times, so follow the visual and temperature cues. (For 6-person meals, combine the 2- and 4-serving ingredient amounts as needed.) *For CustomPlate nutritional information, please refer to EveryPlate.com.*

1.

Bring a large pot of **salted water** to a boil. **Wash and dry produce.** Trim and thinly slice **scallions**, separating whites from greens. Once water is boiling, add **pasta** to pot. Cook, stirring occasionally, until al dente, 9–11 minutes. Reserve **½ cup pasta cooking water**, then drain.

2.

Pat **chicken** dry with paper towels; very thinly slice crosswise. Heat a **drizzle of oil** in a large pan over medium-high heat. Add chicken and season with **salt** and **pepper**. Cook, stirring occasionally, until browned and cooked through, 4–6 minutes. Turn off heat; transfer to a plate. Wipe out pan.

3.

Heat a **drizzle of oil** in pan used for chicken over medium-high heat. Add **scallion whites**, **garlic powder**, and **thyme**; season with **salt** and **pepper**. Cook, stirring occasionally, until scallion whites are softened, 2–3 minutes. Stir in **cream sauce base**, **stock concentrate**, and **¼ cup milk** (½ cup for 4 servings); bring to a gentle simmer. Cook, stirring occasionally, until slightly reduced, 2–3 minutes more. Remove from heat.

4.

Add **drained pasta** and **chicken** to pan with **sauce**; stir to coat. If needed, stir in **reserved pasta cooking water** a splash at a time until everything is coated in a creamy sauce.

5.

Divide **garlic chicken pasta** between bowls and garnish with **scallion greens**.

**Poultry is fully cooked when internal temperature reaches 165°.*
