MORE IS MORE

If you upgraded your meal to double your protein or veggies and/or ordered 6 servings, you may need to cook in batches or larger cooking vessels. Remember: Larger batches may = longer cook times, so follow the visual and temperature cues. (For 6-person meals, combine the 2- and 4-serving ingredient amounts as needed.) For CustomPlate nutritional information, please refer to EveryPlate.com.

1.

Bring a large pot of **salted water** to a boil. Grate **Parmesan** (skip this step if pre-shredded). Once water is boiling, add **pasta** and cook, stirring occasionally, until al dente, 9–11 minutes. Reserve about **1 cup pasta cooking water**, then drain.

2.

Open package of **chicken** and drain off any excess liquid. Heat a **drizzle of oil** in a large pan over medium–high heat. Add chicken and season with **salt** and **pepper**. Cook, stirring occasionally, until browned and cooked through, 4–6 minutes.

Rinse **shrimp** under cold water and pat dry with paper towels. Swap in shrimp for chicken and cook, turning occasionally, until opaque and cooked through, 3–4 minutes.

3.

Reduce heat under pan to low; stir in **Italian Seasoning**, **garlic powder**, **1 TBSP butter**, and **2 tsp flour** until butter has melted and chicken is evenly coated (2 TBSP butter and 4 tsp flour for 4 servings). Stir in **cream sauce base**, **half the cheese**, and **¼ cup milk** (½ cup for 4) until combined. If you like things spicy, add a **pinch of chili flakes** from your pantry if desired!

4.

Add **drained pasta** to pan with **chicken** and **Alfredo sauce**. Toss, adding **splashes of reserved pasta cooking water** (if necessary!) until pasta is coated in a creamy sauce.

5.

Divide **pasta** between bowls and top with **remaining cheese**.

*Poultry is fully cooked when internal temperature reaches 165°.
*Shellfish is fully cooked when internal temperature reaches 145°.
