\$20

If you look closely, you'll see that your steak naturally has lines running through it. To ensure maximum tenderness, slice perpendicular to those lines, aka "against the grain" (as you'll do in Step 5).

MORE IS MORE

If you upgraded your meal to double your protein or veggies and/or ordered 6 servings, you may need to cook in batches or larger cooking vessels. Remember: Larger batches may = longer cook times, so follow the visual and temperature cues. (For 6-person meals, combine the 2- and 4-serving ingredient amounts as needed.) For CustomPlate nutritional information, please refer to EveryPlate.com.

1.

Bring a large pot of **salted water** to a boil. **Wash and dry produce.** Grate **Parmesan** over a small bowl (**skip this step if pre-shredded**). Roughly chop **parsley**.

2.

Once water is boiling, add **pasta** to pot. Cook, stirring occasionally, until al dente, 9–11 minutes. Reserve **1 cup pasta cooking water**, then drain and set aside.

3.

Pat **steak** dry with paper towels and season all over with **half the Italian Seasoning** (**you'll use the rest in the next step**), **salt**, and **pepper**. Heat a **drizzle of oil** in a large pan over medium-high heat. Add steak and cook to desired doneness, 3–5 minutes per side. Turn off heat; transfer to a cutting board to rest. Wipe out pan.

4.

Return pan used for steak to low heat. Add **¼ cup pasta cooking water** (**½ cup for 4 servings**), **cream sauce base**, **mozzarella**, **garlic powder**, **half the grated Parmesan**, and **remaining Italian Seasoning**; stir to combine. Add **drained pasta** and toss, adding **splashes of reserved pasta cooking water** as needed, until a creamy sauce forms. Taste and season with **salt** and **pepper**.

5.

Thinly slice **steak** against the grain. Divide **pasta** between bowls; top with steak, **parsley**, and **remaining grated Parmesan**.

**Beef is fully cooked when internal temperature reaches 145°.*
